

Code of Conduct

Written by Alfred Ross

It has been brought to our attention that we as a society have not fulfilled our standing duty of subscribing to the code of conduct for South Africa Referees. This we will alter and every member when registering for the new season will be required to sign this document .The code of conduct was installed by the S.A.Referees to ensure that we as referees did not in any way degraded and make derogatory remarks against our colleagues in public, it also is in place to stop canvassing to further one's self at the expenses of other referees
